

Decorative

SpectraColour™

Infinite colour choice in no time

Description

SpectraColour™ is a range of decorative glass panels using a 2-ply glass painting system. Orders are custom processed, toughened and painted in the one location, to provide an efficient and timely result.

Choose from a contemporary palette of 20 standard colours- all of them in stock to ensure shorter lead times- or give yourself total creative freedom by using our custom matching service to create the exact colour characteristics your design vision demands.

Considerations

Virtually any colour can be matched using **SpectraColour™**. The natural green tone of standard **VFloat™** can affect light colours and can be minimised by specifying Viridian **SuperClear™** low iron glass.

The painted side must be glazed to the interior of the building.

SpectraColour™ must be selected, manufactured and glazed in accordance with relevant standards and Viridian processing guidelines for toughened glass. Recommendations on heat soak treatment apply.

Features and benefits

- ◆ **SpectraColour™** Standard colours are held in stock, for short manufacturing times.
- ◆ **SpectraColour™** Custom colours provides design freedom with infinite colour options.
- ◆ Glazing uses standard fittings, framing and neutral cure sealants
- ◆ **SpectraColour™** is a Grade A safety glass (AS/NZS2208) when toughened.

Applications

- ◆ Splashbacks and signboards
- ◆ Decorative internal wall panelling
- ◆ Retail shop fit outs
- ◆ Wardrobe doors
- ◆ Furniture such as table tops, desks, shelves, display cases
- ◆ Lift cladding
- ◆ Office Partitioning

Maximum size

- ◆ 3600 x 1800mm
- ◆ Larger sizes may be available upon request

Thickness

- ◆ 4mm to 19mm

How to specify

- ◆ **Select glass name**
Viridian SpectraColour™
- ◆ **Select thickness - process**
4mm to 19mm - Non toughened
4mm to 19mm - Toughened and/or processed
